

MILLIONS LOST BY GREAT FIRE IN TORONTO

GREAT FIRE SWEEPS OVER TORONTO AND DAMAGE IS HEAVY.

Two Hundred and Fifty Firms Swept Out of Business and the Loss Will Reach \$6,000,000—Queen's Hotel Saved.

TORONTO, Ont., April 20.—The fire that raged throughout the night and up to an early hour this morning in Toronto's wholesale and retail business district was the most disastrous in the history of the city.

HEAVY LOSS.

The total loss is conservatively estimated between five and six million dollars.

The principal warehouses of the city were reduced to ashes and nearly 250 firms were put out of business.

The area covered by the fire is three blocks in length and varies from half a block to two blocks in width. Every building on Bay street from Melinda street southward to the esplanade on the water front was wiped out and the fire spread on Wellington and Front streets and the esplanade along the water front from their intersection with Bay street from districts of a few hundred feet to a whole block. The total number of buildings destroyed was 123.

APPEAL FOR ASSISTANCE.

Early in the evening when the fire assumed alarming proportions appeals were sent to London, Hamilton, Montreal and Buffalo. Special trains were at once started from these points, but it was long after midnight before the first of them began to arrive and in the meantime the local firemen were having the fight of their lives.

From the time the fire started on the north side of Wellington street, a short distance east of Bay street in the E. and S. Currie neckwear manufacturing plant, until it burned itself out at daybreak there was not a moment when a shift of wind to the north would not have resulted in the destruction of the greater part of the city.

At an early stage of the fire, Chief Thompson was forced to jump from the top of a building when trapped by the flames. A network of wires broke his fall and saved his life and he escaped with a broken leg. When the chief made the leap for his life, a traveler from Montreal was on the roof with him and no trace of him has since been seen. It is probable that he perished in the flames.

START OF THE FIRE.

The fire started in the elevator shaft in the rear of the Currie building. Then the flames spread across the street to Brown Brothers and from there east to Bay street. The wind, which had been brisk, increased to a gale. A general alarm was sounded, but before all the firemen reached the scene, the fire had leaped to the high buildings occupied by Ansley & Co. and Pugsley, Dinsman & Co. Almost simultaneously flames began to shoot out from the Brown building and the firemen were obliged to divide their forces.

In an incredibly short time, half a dozen buildings were a mass of flames and the streams of water thrown into

them had no apparent effect. The Gale Manufacturing Company's plant was the next prey to the fire and shortly afterwards the flames from the east side of Dingham & Moneypenny's building were carried across to the east side of Bay street to the Office Specialty building.

It was here that the firemen united forces and made a desperate stand to check the progress of the flames northward in the heart of the city. They won, but not until they had lost control of the flames which were now sweeping down Bay street toward the river front. The office of the Evening Telegram, the next building north of the Office Specialty building, was slightly damaged in the two hours' fight with the raging flames.

BUILDING SAVED.

In the meantime the immense warehouse of the W. R. Brock Company on the southwest corner of Bay and Wellington streets was being subjected to the intense heat from the burning Brown building on the east, and the Dingham and Moneypenny building opposite, with scarcely a stream of water playing upon them.

The big wooden water tank on the roof caught fire, but in some strange manner the building itself was saved from destruction for the time being. In a brief space of time Front street, on both sides, was like a roaring furnace. For over half an hour the fire in Front street burned fiercely, practically unchecked. It then began to work its way back upon Bay street.

HOTEL PROTECTED.

It was only the intervening park that saved the Queen's Hotel, one of the finest hostels in the country. The guests hurriedly left and everything portable was removed from the hotel.

The flames leaped across Bay street in half a dozen places and shortly before midnight it became apparent that the whole block south of East Wellington street was doomed. In forty-five minutes the flames had leveled every building between Front street and the esplanade on the west side of Bay street.

The firemen, who had been forced to retreat slowly on Front street and the esplanade, concentrated their forces and made another desperate stand. They failed this time. The flames leaped across the street below Front street and destroyed McLaughlin's flour mills at the corner of Bay and Front streets. From there the fire took an easterly course toward Yonge street and dangerously near the wharves. On the southwest it burned itself out for lack of fuel. The flames were also spreading toward the east along both sides of Front street and the east side of Wellington street.

FIRE STOPPED.

The customs house, a four-story stone building at the corner of Yonge and Front streets, was the barrier that stopped the progress of the flames toward the eastern end of Front street. Tons of water were thrown against the sides of the customs house. That structure was not seriously damaged.

Dynamite was used on several small buildings.

Hundreds of streams of water are still being poured into immense deposits of glowing embers, but the fire has spent its force and all danger has passed.

DOLLIVER DEFENDS POLICY OF REPUBLICANS.

WASHINGTON, April 20.—In the Senate today, Mr. Hale from the Committee on Appropriations reported the general deficiency appropriation bill, Mr. Dubois introduced and the Senate passed without comment, a resolution instructing Postmaster-General Payne to ascertain as far as possible and report to the Senate what, if any postmasters in Colorado are living in polygamy.

TRUST QUESTION.

Mr. Dolliver then addressed the Senate on the trust question. He referred to the attitude of the Democratic party toward the tariff, saying that for the first time in our national history since 1868, the policy of protection stand approved, its enemies themselves being the judges, by the common consent of the American people. He defended Republican policies from the charge that they fostered trusts and said:

PROTECTIVE TARIFF.

"There is only one sense in which the protective tariff can be held responsible for the trusts, that is that

without the protective tariff, there would have been fewer industries to combine and therefore fewer combinations."

He declared that the effect of the abolition of the tariff would be to turn our markets and our industries over to the other nations.

Mr. Dolliver, in closing, said:

THE CAMPAIGN.

"We approach this presidential campaign united in the bonds of our sisterly faith. We did not originate it, we inherited it from our fathers."

"If chances are required to bring the tariff law of 1897 into a more perfect relation to the industrial progress of the American people, we propose to make them ourselves, whenever in our judgment the work can be undertaken without doing more harm than good, but we shall not consent to any changes which surrender the rights of American labor, the advantage which every man, who makes a bonafide investment of his money into the United States, ought to have over his competitors in other lands."

News of a Great Battle Expected at Any Time—Japanese Near New Chwang.

SEOUL, Korea, April 20, 11:45 p. m.—The Japanese authorities here admit that a great battle is expected at any time. It is estimated that the Russians now have 50,000 men on the Yalu river.

The wildest rumors are afloat, largely from Korean sources, which are absolutely unreliable.

RUSSIA GETS SHIPS IN UNITED STATES.

ST. PETERSBURG, April 20, 10:49 p. m.—In regard to the reported purchase by Russia of four ships in the United States it is now said that the deal was negotiated in Constantinople by General Williams, the agent of a Philadelphia shipbuilding company, and the Russian Ambassador to Turkey, M. Zinovief.

The Admiralty still lacks definite information as to the cause of the Petropavlovsk disaster. The authorities at Port Arthur evidently are not yet convinced that they have the true explanation. The general staff here is divided between two opinions, a mine or a boiler explosion, although a few still cling to the theory that the battleship was sunk by a submarine boat. The boiler explosion theory is based on the knowledge that the Petropavlovsk had been steaming at full speed and that her sudden slow down may have caused an accumulation of pressure which burst her boilers. Those who accept the mine theory, and they are in the majority, believe that the explosion of the mine detonated the magazine, which blew up before the boilers. The main objection advanced against the mine idea is that the water where the catastrophe occurred is too deep for anchored mines.

"I can scarcely imagine that Vice-Admiral Togo would dare to turn loose a lot of floating mines," said one of the highest authorities. "The tides are

high and the currents strong at Port Arthur, and floating mines might easily be carried out to sea and endanger his own ships."

THE PROGRESSIVE SPIRIT OF OAKLAND SHOULD ASSERT ITSELF NEXT SATURDAY BY GIVING THE SCHOOL BONDS A THUMPING MAJORITY. BOOST THE CAUSE OF EDUCATION.

JAPANESE WANT ALEXIEFF.

LONDON, April 20.—The Japanese Legation here is greatly interested in the announcement of Viceroy Alexieff's resignation. The opinion is expressed that if he had resigned six months ago there would have been no war, but now that hostilities are in progress the Japanese would have preferred to see Alexieff remain control.

JAPANESE CRUISER WAS SUNK.

PORT ARTHUR, Tuesday, April 19. (Delayed in transmission)—All is quiet throughout this district.

It is persistently asserted that a Japanese cruiser was sunk off Port Arthur April 15 and that the Japanese armored cruisers Nishin, and Kasura were damaged, respectively below and above the water line.

COSSACKS DESTROY PROPERTY OF JAPS.

TOKIO, April 20 (9:30 p. m.)—Russian troops to the number of 1000 as reported to be in occupation of Yung G. N. North-east Korea. A detachment of forty Cossacks has appeared for a second time at Sung Jin, about 150 miles north of Gensu, where they burned the Japanese settlement and took possession of the post and tele-

graph offices. As there were no Japanese troops present the Korean officials of Sung Jin were friendly to the Russians. Another detachment of seventy-five Russian soldiers has advanced as far south as Puck Chyang, about seventy miles down the coast from Sung Jin.

RUSSIAN SCOUTS DO ROUGH WORK.

SEOUL, April 20 (5:35 p. m.)—The Japanese consul at Wonsan telegraphs that a Buddhist priest is the only Japanese who remained at Sung Jin, on Plak-sin bay, in the northeast of Korea, at which place the Russians are reported to have burned the Japanese residences and to have destroyed other property belonging to Japanese.

There is no telegraphic communication with the Sung Jin district. The further movements of the Russian scouting parties are not known.

JAPANESE FORCE NEAR NEW CHWANG.

LONDON, April 20 (2:02 p. m.)—A dispatch to the Central News from St. Petersburg says it is reported that a Japanese force has landed near New Chwang.

CORRESPONDENTS GO TO FRONT.

NEW CHWANG, April 20.—The correspondents of leading French, Italian and British newspapers, of one American newspaper and of the Associated Press have been permitted to proceed to Mukden. They left here today.

United States Consul Miller entertained the correspondents at the consulate previous to their departure. They are the first foreign newspapermen admitted to the Russian lines since the declaration of war.

ONLY NEGLECT AND INDIFFERENCE CAN DEFEAT THE SCHOOL BONDS NEXT SATURDAY. DON'T LET IT BE SAID THAT OAKLANDERS CARE SO LITTLE FOR THEIR SCHOOLS THAT THEY WILL NOT TAKE THE TROUBLE TO VOTE FOR THEM.

This is an era of organization for the advancement of individuals, enterprises and municipalities in other sections of the country, and it is none the less so in Oakland.

Clubs and associations for improvement purposes have sprung up in various parts of the city and, in fact the town has been invested with them through the patriotic efforts of residents in the suburbs. Reference to a greater or lesser degree has already been made to these organizations in the press, but, up to the present time, a kindred organization, in Oakland, with a most commendable purpose, has escaped the attention of the press.

NEW ALLIANCE.

The organization will be known as "The Common Good Alliance of Oakland," and, as its name indicates, will strive to subserve the public weal in all lines of efficiency and excellence and, at the same time, endeavor to cause its members and citizens generally to realize the advantages they enjoy as citizens and the duty incumbent upon them, of exercising to the fullest, the prerogatives of that citizenship. In speaking of this organization, a gentleman who is imbued with civic pride and who has always stood for progress and good government said to a TRIBUNE reporter:

BEST CITIZENS.

"A number of the best citizens have been quietly meeting for the purpose of organizing the solid citizens of Oakland to aid in the development of the city in every way possible.

"Five meetings have been held with this end in view, the latest of these being that of last Tuesday night.

CITIZENS NEGLIGENT.

"It is generally recognized that a

large proportion of the men in every city absolutely neglect their civic duties.

"Oakland has sixty churches the men of which practically take no part in the conduct of local public affairs.

"Those who originated this project had in mind the formation of a central organization representing, Protestant, Catholic, Hebrew—men of all denominations and men of no religious denominations at all, with the view of bringing to bear a practically united sentiment of the substantial conservative citizenship upon all matters affecting the well-being of the community.

GOVERNING RULES.

"A constitution and a set of by-laws have been blocked out and at the Tuesday meeting on motion of Rabbi Friedlander, 'The Common Good Alliance of Oakland,' was adopted as the name of the association. The temporary officers are Irwin Ayers, president and J. C. Hill, secretary.

NEXT MEETING.

"An adjourned meeting of the organization is to be held on the night of May 8 at the Y. M. C. A. building, which the clergymen of this city are invited to attend in order that they may be informed as to the purpose of the organization and they will be requested to preach a sermon in the latter part of May as nearly on the same date as possible upon the general subject, 'The Duties and Responsibilities of Citizenship.'

REPRESENTATIVE MEN.

"At all the meetings thus far held, there has been a very gratifying attendance of representative men of Oakland, regardless of creed or political affiliation and the utmost enthusiasm has been displayed and a general desire has been expressed to make the organization of permanent and marked value to this city."

Polite attendants will be at the residence to show friends and the public through the house and furnish them with catalogues and prices of the articles offered.

OAKLAND HAS NEVER YET FAILED TO VOTE BONDS FOR SCHOOL IMPROVEMENTS. DON'T LET THE RECORD BE BROKEN NEXT SATURDAY.

SAN FRANCISCO, April 20.—At the conference today between the Hackmen and Stablemen's Union and the Hack and Stable Owners' Association, the former offered to continue at work for another year under present conditions, provided the association would remove its "open shop" cards. This request was refused.

The union men were then notified that no more conferences with them would be held and that all future communications with the association must be made through the officers of the Citizens' Alliance.

THE FRIENDS OF PROGRESS SHOULD RALLY TO THE POLLS WITHOUT FAIL SATURDAY AND VOTE FOR THE SCHOOL BONDS. THEY SHOULD ALLOW NOTHING TO INTERFERE WITH THE PERFORMANCE OF THIS DUTY.

THE DEMAND FOR Summer Dress Materials KEEPS SALESMEN BUSY

This is the busy month in the departments where the cotton and wool fabrics for your summer dresses are sold. The stormy spring has retarded your dressmaking as well as our selling, and now we're both overwhelmed. Undoubtedly Taft & Pennoyer quality, price and variety have something to do with it, too.

New Wool Fabrics

From Foreign and Domestic Looms

In their endeavor each to outdo the other, the manufacturers of England, Scotland, and our own America, have produced summer woolsens in wonderfully pretty patterns. We have these pretty patterns on our shelves, and the prices on them you would not meet elsewhere. Large purchasing power has given us this control of the situation.

Cheviots—Light in weight are these cheviots, and light in color also. Fancy mixtures predominate. Their width is 37 inches—their price . . . 50c per yard.

Etamines—These etamines exhibit the two-toned effects which has present favor—four colors . . . 50c per yard.

Homespuns—In cheviot homespuns we show six attractive patterns. They not only make up well, but wear well, too . . . 50c per yard.

Etamine Cheviots also claim summer favor. In white floconne effects we have seven shades . . . 50c per yard.

Suit Patterns at Moderate Prices

This season the Taft & Pennoyer suit pattern department is particularly strong in dress lengths of moderate price.

At \$5.25 we offer cheviots and homespuns in a variety of new and attractive patterns.

At \$6.00 are to be had light weight cheviots and cheviot etamines in the gray and brown shades which have found much favor in ready-to-wear suits.

At \$7.00 a wool sack in brown, blue and gray, flaked with white, is to be had.

Cotton Dress Goods

Were Never Prettier

As the weaving, printing and finishing art advance the beauty, design and color of cotton fabrics excel those of the previous year. We think it no idle boast that you will find the prettiest at Taft's.

Cotton etamines have deserved favor this season. They are particularly well suited for shirt waist suits and waists. Solid colors and flaked effects on French blue, pink, blue and champagne grounds predominate . . . 75c per yard.

Dotted Swiss muslin sold with such rapidity that we were compelled to re-order. Our second shipment has just been received. In it you will find white and colored grounds with machine embroidered dots and small figures, and printed polka dots and floral designs—35 patterns—27 inches wide . . . 15c per yard.

Sylvan Repe are, if anything, the most popular of spring's cotton suitings. Their admirable wearing quality makes them desirable for walking skirts, shirt waist suits, and children's wear—28 inches wide . . . 25c per yard.

On Special Sale

Oxfords—This morning we opened a case of oxfords, which, had they arrived six weeks earlier, would have been marked 50c per yard. They show white basket weave grounds, with broad and narrow parti-colored stripes—32 inches wide—on special sale at . . . 25c per yard.

French Batiste—The new eoru, tan and champagne shades predominate in the embroidered batiste we have brought out from Paris. Some pieces have lace stripes, and some are embroidered with small colored dots—40 inches wide—75c value—on special sale at . . . 50c per yard.

New Challies Delight the Eye

Challies, tried and true, are still prime favorites. In the satisfaction they give there has been no change, but new patterns and colorings please the eye more than ever.

Plain color challies with satin stripes, and those showing small rosebud patterns, suitable for children's dresses. . . 35c per yard. Imported French and German challies are shown in many novel patterns and colors. Solid colors with wide ribbon edge satin stripes; blue, white and black grounds with pinhead polka dots; narrow rosebud stripes on cream grounds; and broad floral patterns, have greatest favor . . . 50c and 75c per yard.

SMOOT CASE

Mormon Question Again Before the Com- mittee.

WASHINGTON, April 20.—What may be termed the second round of the Reed Smoot contest opened today before the Senate Committee on Privileges and Elections. It was announced that seven witnesses would be heard before the adjournment of Congress and it is practically certain that the committee will then adjourn to convene July 18th. At that time will be examined witnesses who were unable to come to Washington and other who could not be reached with summons to come here.

Important testimony for the prosecution is expected to be developed at this session of the committee. The hearing opened without formality of any character. Brigham H. Roberts was called to the stand by Mr. Taylor. He was questioned to bring out a statement of his official connection with the church.

Mr. Roberts said he was elected to the position of one of the first seven presidents in 1888 and entered politics about 1899. His interest was manifested in making speeches, but he was not a candidate for office until 1894. He was then elected as a member of the constitutional convention and he had accordingly consented not to urge his candidacy. He was nominated during his absence and was informed that the order had been rescinded. He said that Joseph F. Smith was the member of the first presidency who said the ruling had been modified.

In response to questions of Mr. Taylor, Mr. Roberts said his first plural marriage was performed by D. H. Wells, counsel to the apostles, and he thought the ceremony was performed at the home of Mr. Wells' son.

Senator Overman inquired of Mr. Roberts whether his first wife and his second wife had consented to his marriage to his third wife.

"No sir," said Mr. Roberts. Continuing, he said they did not learn of the marriage for three or four years.

"How was that?" asked Senator Beveridge. "Do you mean to say that the marriage was known to any one?"

"The marriage was known to some of my friends, but not to my wives," was the answer.

"Why was this marriage concealed from them?" asked Chairman Burrows.

"Because I did not want to embarrass them."

"How embarrassed them?"

"Well, we knew the marriage was illegal and it might be embarrassing to them if they should for any reason be called to testify."

Mr. Roberts said his third wife was the divorced wife of Dr. Shipp and in regard to his courtship he said he always had met her at the house of mutual friends and had never called on her at her home. He also said that she continued to live in her home, but that he never had called on her there until she removed to rooms on Main street, Salt Lake.

Mr. Taylor asked Mr. Roberts if he knew that Maggie Shipp Roberts lived in a house where her divorced husband and two of his divorced wives.

Mr. Roberts said he was not aware of that fact.

RAILWAY MEN STRIKE AT BUDA PEST.

Hundreds of the Leaders Are Thrown Into Prison By the Police.

BUDA PEST, April 20.—The strike of railway men which began yesterday on the Hungarian Western Railway, has become general on all the Hungarian state railways today.

The traffic is at a complete standstill. The Southern Railway, now owned by the government, alone managed to start trains out of Buda Pest today. Six trains due last night have not yet arrived. The strike committee, by telegraph, ordered all traffic to stop at midnight and all trains to be abandoned by their crews at the station where each happened to be at that hour.

STRIKE LEADERS.

The committee proposed to dispatch trains to places along the line for the purpose of bringing the strikers into Buda Pest, but no passengers will be carried on these trains.

The men declare they are willing to return to work if their demands for increased pay, which they claim was promised them by Premier Tisza, are granted and the strike leaders reinstated.

The railroad stations are guarded by troops.

A number of strikers' delegates arriving here to attend a meeting have been arrested.

MANY ARRESTED.

The price of provisions has risen. Up to the present time 450 railroad employees have been arrested.

The situation was discussed by the ministers and deputies prior to the sitting of the Diet. Premier Tisza declared the government could not negotiate with the strikers and had ordered troops to be summoned to assist in the re-establishment of order and had instructed the railway and telegraph personnel to operate the railroads.

An example, he added, must be made of the ringleaders of the strike.

Another batch of 500 railroad men from Flume have been arrested.

STOLE A TRAIN.

The men in the workshops of the Western Railway have joined the strikers. The latter have disconnected the telegraph instruments at various points, severing communication.

A band of fifty railroad men seized a train at Bat-terbury, brought it to Buda Pest and reported themselves to the police, who have instituted criminal proceedings against them.

PAY TRIBUTE TO MEMORY OF MARK HANNA.

COLUMBUS, Ohio, April 20.—For the third time since the present session began the Legislature paused in its work to pay honor to the late Marcus A. Hanna.

The second week in January it elected him to a second term in the Senate. A month later it adjourned out of respect to his death and to attend his funeral and today the two branches met in joint session to hold formal memorial exercises and to pay honor to his memory.

The joint session was held in the hall of the House, Lieutenant-Governor Warren G. Harding, presiding. Governor Herrick made a few introductory remarks. The memorial address was delivered by Senator Charles Dick.

Senator Dick said:

"The only office Senator Hanna ever held, excepting a seat on the Board of Education of his adopted city, was a seat in the United States Senate. It is given to few men who have been re-elected and persecuted as he was, to enjoy such a complete reversal of sentiment and to close their days in the full sunlight of power, confidence and esteem. His greatest legislative achievement was turning a futile majority against the isthmian canal to a decisive majority in its favor."

"Senator Hanna was not merely a scholar. He was more than that. He was a thinker who did not permit others to think for him. The greatest good he did was what he accomplished to solve the greatest industrial problem. His greatest service lay in making labor and capital better acquainted."

"He passed away in the fullness of his influence, in the full possession of his splendid faculties, in the midst of a public career which gave promise of even larger usefulness, secure also in the knowledge that he was known and honored by his countrymen, that all misunderstanding and misconception had passed away; looked up to by one set of interests as his shield and aid, and by another as his friend."

Speaker Thomas said that Senator Hanna believed in the future greatness of this country and in the doctrine of America for Americans, and he taught those administrative principles that led to great industrial and commercial progress. He understood the principle and as the people came to understand him they thought more of him. His life and work would be an inspiration to young men for many years to come.

DOLLIVER DEFENDS POLICY

(Continued From Page 1.)

We look forward with hope to the progress of our commerce from the river to the end of the earth, but we don't forget that the statistics of our foreign trade have brought the most encouraging to our people in those exact periods when our own producers have been most perfectly guarded against injurious approach of the outside world and that the law of 1897 for the first time in our history has yielded us a favorable balance of our trade in manufactured goods.

PORTO RICANS ARE NOT ALIENS.

WASHINGTON, April 20.—The House Committee on Insular Affairs has authorized a favorable report on the Senate bill providing for the naturalization of Porto Ricans as citizens of the United States. The committee eliminated from the bill the naturalization provision on the ground that the Supreme Court of the United States had decided in the Gonzales' case that Porto Ricans are not aliens.

**TOM WILLIAMS' LATE COLORED
SERVANT WILL BE BURIED
TOMORROW.**

William Nathaniel Joseph, confidential servant of Thomas H. Williams, the racing magnate, will be buried from the Zion Afro-American Church tomorrow afternoon.

The deceased had a varied career and in some respects remarkable. He was born in the West India Islands, but came to this country when a boy. He became a servant in the Williams family many years ago, and for a colored attendant he enjoyed a peculiar distinction. He disbursed almost all the money pertaining to the Williams household.

At the end of the month Joseph was handed a check for the amount of the expenses and he made the disbursements. During the latter years of his life he has been suffering from heart disease, and was seldom seen driving his master's vehicles as before. When the disease reached a stage where the trusted servant was no longer serviceable, Mr. Williams pensioned him.

Mr. Williams' late colored servant, who was so strongly attached to Mr. and Mrs. Williams to their servants that they will be among those who will attend the funeral services.

TILL TAPPER WOULD PLEAD GUILTY.

"I was crazy drunk. That is the only reason I tapped the till," said Alexander Rankin to Police Judge Samuels this morning, while he was being arraigned on a charge of burglary. Rankin wanted to plead guilty to petty larceny. Judge Samuels was unable to accept the plea of guilty and so the matter was set for preliminary hearing on April 26. Rankin was caught red-handed yesterday robbing the till of P. A. Cox, a Market street grocer.

COLLEGE GIRLS PLAYING IN TOURNAMENT.

**Intercollegiate Tennis Matches Are
Being Contested in San Fran-
cisco This Afternoon.**

BERKELEY, April 20.—The intercollegiate women's tennis tournament, that was interrupted by the rain at Stanford last Saturday, is being played off on the California Club courts in San Francisco this afternoon.

Miss Ethel Ratcliff, '05, and Miss Miriam Edwards, '07, will defend the honors of California in the singles matches. Miss Miriam Edwards and Miss Gladys Wickson, '05, will attend to the doubles part of the tournament.

Without doubt the University is represented by the best quota of women tennis players this year that has ever been chosen to defend the Blue and Gold. Miss Edwards and Miss Ratcliff, unquestionably are the two best women players in this end of the State. Miss Wickson has shown herself quite proficient in the handling of the racket and with three such exceptionally good players it is almost certain California will claim the championship honors. The Blue and Gold tennis players defeated Stanford last Saturday in rather easy style in the gentlemen's singles and if the women championship can be annexed all the tennis championships will be

owned by the California racquet wielders.

Miss Mabel Ray has recently won the championship at Stanford and consequently will be pitted against Miss Ratcliff. There are two others who are to take part in the tournament, but it has been impossible to find out who they will be. One of them will be scheduled to play Miss Edwards. As yet, the doubles team has not been announced by the Cardinals. This will probably be the closest match of the tournament. Each of the singles matches counts one point and the doubles match one, so that the University winning two of the three matches will claim the championship.

It has not been decided when this match in doubles which was postponed last Saturday on account of rain, will take place. An attempt is being made to have the match played off next Saturday morning on the California courts.

When the match was called the games stood five for Stanford and four for California, in the first set. At the time Varley was considerably out of form on account of a recent "grip" but by Saturday he will be all right and can be expected to fill the bill.

JUDGE WOULDN'T PLAY A TIP.

(Chicago Telegram to the New York Times.)

Judge Richard W. Clifford held a "sure thing" on one of the Oakland races recently, but would not interrupt a session of his court in the Criminal Court building to play it.

A telegram was brought into court by a messenger boy while the judge was intent on knotty propositions in law. He quickly opened the message, and read: "Get in on Kitty Kelly. Good thing. Can't lose."

The judge's face expanded into a broad smile as he turned to his clerk and said:

"This isn't for me. I wouldn't think of taking advantage of a fellow. I've been in the telegram finally went has not been disclosed. Kitty Kelly crossed the wire a winner at odds of 4 to 1."

THEY WERE IN ROME.

Word has been received by Julius Abrahamson of the firm of Abrahamson Brothers that his brother Hugo with wife and family who have been absent for several months and who are making a tour of Europe spent Easter in Rome. All were in the enjoyment of excellent health.

Unhappy Remark.

"I'd be willing to work fifteen hours a day for you, darling," he ardently pleaded.

"Scab!" she hissed, as she swept from the room; for her papa was a walking delegate. — Town and Country.

FAVORITES FARE BETTER.

**LONG SHOTS TAKE A DAY OFF
THOUGH HEATHER, HONEY
MADE 12 TO 1.**

Money Muss, was the favorite in the first race of five and a half furlongs at Emeryville yesterday closing at the prohibitive odds of 3 to 5. Olympian was the second choice and closed at 9 to 2. Money Muss got away first and never was in danger placing more ground at each stride between himself and the field. It was a one-horse race and the gelding galloped home with speed to spare and five lengths to the good.

Dora I looked upon to be placed and played for the position was beaten out down the stretch by the 60 to 1 shot Headwater. Steph though 20 to 1 at closing had quiet backing but ruined all chances of his supporters by running away for a three-mile race all by herself and did not start. Olympian was not in the money running fourth and Pencil Me was last. Six horses were scratched on account of the muddy track. The time was 1:09.

Another favorite came home in the second race of four furlongs. Cardinal Sarto, in 50 to 1, Glenore opened at 5 to 2 and second choice but closed at 4 to 1. The gelding acted very badly at the post and delayed the start. M. A. Powell played from 60 down to 20 the day before, closed at 12 to 1 yesterday and was able to get in the money behind Glenore who finished second. Heywida made up a lot of ground. Sea Voyager floated along with the tide; Pearl Waters ran sixth and Jocular carried out the significance of his name, and was a poor joke. Five horses were scratched.

Optimo was the choice of the talent in the third and closed at 13 to 5. Crosswale was taken down and McBride put up. Pierce J. won the sixth and a half furlongs easily by four lengths and was in trouble. He closed at 5 to 1. Rollicker second and was a disappointment to the many who had tipped him to win. Pat Morrissey ran a good race and made a strong bid for show being beaten out by half a length by Optimo in the last few strides. Alice Carey was third and could not stand the drive. Modder did not realize that he was in a race but thought it was a walking match. The time was 1:23 3-4.

There seemed to be little doubt among the spectators that the two horses would win and the price put upon him 3 to 2. With See up, justified his winning. Boutonier had a lot of support and was tipped by the outsiders to win without trying. The start was good. The two horses were the ones in the race from start to finish and had it all to themselves. It was only a question of "all over but the shouting." Boutonier stood a hard drive down the home stretch and Postart fought to the wire winning by a neck. It was a hard race. Canard was third and had trouble in securing third position. Idaho stopped. The time for the mile and seventy yards was 1:47 3-4.

The favorite, Beau Ormonde at 11 to 5 won the fifth race easily by two lengths and was the best of the field. Knapp rode him a good race. He was poor. Celebrant, Hagerdon, Don Domo and Double Six finished in the order named all driving. Sheehan rode Celebrant a clever race. The time for the future course was 1:12 3-4.

The last race of 8 miles, fifty yards was taken by Heather Honey by a neck over Hainault who should have won but was forced to too much speed in the middle of the race. Lagoon was third. George Berry could do no better than sixth and Joey Jones could not get him to try. Herbert on the Bugaboo was not able to force the colt into a good position and ran just ahead of the last horse, Harka. Hermencia was fourth. Colonel Ballantyne beat out George Berry by a head for fifth. The time was 1:47 3-4.

ENTRIES FOR BIG FIELD DAY ARE CLOSED.

**State University and Academic
League Will Be Well Represented
At Athletic Carnival.**

BERKELEY, April 20.—Entries for the big Pacific Athletic Association oval next Saturday closed last night. Many of the finest athletes of the Pacific Coast have entered, as the team which will represent the coast at the Olympic games of the St. Louis Exposition will be chosen from the winners.

Herbert Houser, George James, and D. E. Brown are on the committee in charge and have about completed arrangements for the greatest field day the West has ever seen.

All entries are welcome in their line, not a single man taking part who has not a record behind him.

Probably the star event of all is the 100-yard dash, with Abadie and Cadogan fighting against B. J. Cape of Lick. The latter stepped the distance in 10 2-5 a short time ago and was not hurt run. Both the former have done 10 flat. Bakersfield has a champion in the person of Young Miller from the local High School, who will have a say in the mile run, and Southern California sends two clever youngsters in Hagerman, a broad jumper, and Parsons, a sprinter. Santa Clara High School has a deep interest in the coming events and will have some possible record breakers in the lists.

Coast records are almost sure to tumble in several of the contests and a world's record or two may topple before the sun sets. Norman Dole of Stanford has exceeded the world's best mark while practicing at pole vaulting and has done within an inch and half of it in public. He is determined to live up to his practice on Saturday and will be obliged to in order to win a place on the team, as Harry Irwin of Lick is proving him close.

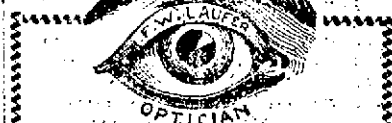

Albert Plaw appears likely to beat the best previous hammer throw and J. A. Blakemore of Berkeley High School will make him extend to the limit.

California, Stanford, Nevada, and crack men from a number of prepara-

tory schools will compete. The full list of events will be a mile, half mile, quarter mile, 220 and 100 yard runs, 120 and 220 yard hurdles, pole vault, broad and high jumps, putting sixteen-pound shot and throwing sixteen-pound hammers.

When that tired feller comes along, sidetrack it with Jesse Moore "AA"—the best whiskey in the land.

The Tale of a Shirt

There was once a rich old king who could only acquire happiness by wearing the shirt of an absolutely happy man, so he sent his couriers out to find such a person and the only really happy man they found was a poor lone beggar. The courier asked him how much he would take for his shirt. With a joyous hearty laugh the beggar replied, "Ha, ha, ha. Why, my good man, I never owned a shirt."

Our shirts are different. They cause happiness by reason of their perfect fit, finish and good value. Prices at \$1.00, then \$1.50, again at \$2.00, and others at \$2.50. Every style and all the popular makes.

HEAVYWEIGHTS TO MEET FRIDAY.

**TWO BIG COLORED BOXERS WILL
FIGHT—WINNER TO CHAL-
LENGE "JEFF."**

Friday night at Mechanics' Pavilion two gentlemen of color will meet in the arena to decide who is the better man and incidentally to find whom one will be the man to challenge champion Jim Jeffries. Jack Johnson and Sam McVey will fight hard for decisive honors.

Johnson and McVey have met twice before and Johnson won both times. His victory over the sturdy McVey was the culmination of a string of victories and sports began to talk of matching him against Jeffries. Pressure was brought to bear on Jim, who had drawn the color line. Just at this time he put up a time exhibition with Sandy Ferguson at Compton and it was all off. Johnson has won back his lost standing and is now considered to be in line to challenge the champion in the color line question will be put aside by Jeffries.

Jack Johnson is without doubt one of the greatest heavyweights in the country. He is a big, loose, jointed fellow, but quick as lightning on his feet. He has great speed and is careful. Johnson's blocking is one of his strong points. He is perhaps best remembered by the way he handled George Gardner in the ring at Woodward's, when he had the Lowell man on queer street and won the twenty round bout without a thought. In this contest it was said that his hitting powers were not strong enough, but he disproved this later by showing Sam McVey the class of high pressure he had in reserve.

McVey is the "strong man" of the two. He is built square, stocky and solid, can stand a world of punishment and is a hard hitter. The only disadvantage he has to contend with is his height. McVey's style of fighting is his running tactics. He realizes that, in condition, he has endurance and can stand anything which he likes. He is a real hitter at close quarters and can inflict severe punishment, giving blow for blow. Both men are after the chance to get Jeffries and with this aim in view the battle will be a fiercely fought contest.

Johnson is training at Link's Gymnasium in West Oakland and Sam McVey at Joe Miller's near Colma.

Johnson has been favorite over McVey in the betting, the price being 5 to 10.

THE LATEST NEWS.

NOT YET ACCEPTED.

Alexieff's Resignation Still in Hands of Czar.

ST. PETERSBURG, April 20.—(T. S. P. M.)—So far, as can be learned, no action has been taken in regard to Viceroy Alexieff's application to be relieved of his duties. Indeed, it is not officially admitted that such an application has been received.

Rumors of the Viceroy's approaching return have gained wide circulation, but further than admitting the fact of the existence of unfriendly relations between the two men, the official world did all in its power to discourage the idea that Viceroy Alexieff's appointment to command the Russian fleet at Port Arthur could lead Admiral Alexieff to take a hasty step. Skrydloff himself has had a long interview with the Emperor and it is considered quite probable now that the situation is the subject of public discussion that a way may be found to smooth matters over for the present, in order to preserve appearances.

MUST BRING NEW ACTION.

The effort to take away the child of Margaret Brannan by the Society for the Prevention of Cruelty to Children, failed today, by reason of the fact that the complainant gave her name as Margaret Smith. She has a baby two months old and makes a practice of getting drunk. She was recently sentenced to six months in jail. The name being wrong, Judge Greene ordered the case dismissed and a new action brought to save any technical point that might afterwards be raised.

WAS AFRAID OF RECORD.

Since George Miller escaped from his cell in the Livermore jail a week or so ago it has been discovered that he had served a five year sentence in Folsom and that it was for this reason that he took such chance to make his escape. He was afraid of his record and that it would be discovered. He was convicted under the name of George Silas.

FORM GROCERY COMPANY.

Articles of incorporation of the Miller-Walker Company were filed with the County Clerk today. The purpose of the company is to conduct a general grocery business in the town of Berkeley. The directors are W. A. Walker, Anna Walker, Abner Walker, W. W. Miller and Dean Miller. The capital stock of the corporation is \$20,000 divided into shares of the par value of \$100 each.

KING PRESENT AT EPSOM.

LONDON, April 20.—The City and Suburban Handicap of \$10,000 at Epsom today was won by Robert Le Diable. King Edward was second and Ceres third. King Edward went to the post.

ZERO WEATHER IN EAST.

MONTPELIER, Vt., April 20.—Central and Northern Vermont are now snow covered as the result of a storm which began last night and still prevailed today. The mercury stands at zero.

AVALANCHE IN GENEVA.

GENEVA, April 20.—After three days of continuous rains many avalanches and landslides have occurred in the neighborhood of the Simplon Pass. At Gringols an avalanche buried twenty persons and five houses.

WHY HE LOST HIS JOB.

(New York Sun.)
A young man who started in yesterday to lay the foundations of his fortune, by backing a horse in a Fifth Avenue hotel, lost his job after the first shine. He meant well, but ruined one silk hat.
His first customer was a young man who believed that the day was one for his best clothes and lived up to his conviction. He dropped into the bootblack's chair just to have a finishing touch put on a pair of patent leathers that already glittered.

The young boy did his best by the shoes, and then he did his worst. He grabbed the young man's silk hat and went at it with a coarse whisk broom. To complete the job he made two sweeps the wrong way of the silk.
The owner of the hat shot the toe of his polished shoe straight and true against the anatomy of the boy. The boss did the same thing. The boy, without stopping to ask what he was getting kicked for, fled. He'll have to start anew elsewhere.

MELVIN IS DEAD.

Remains of Drowned Man at Morgue are Identified.

BERKELEY, April 20.—According to the identification made by J. H. Cooper of 601 Third street, Oakland, the remains of the man washed up on the West Berkeley shore last night may be those of Robert Melvin, a sail-boat trader residing on Telegraph avenue.

Cooper bases his belief that the man is Melvin upon the fact that a boat belonging to him was found adrift off Point Richmond several days ago. It contained the owner's coat and shoes.
When the corpse was found last night it was attired in a red sweater striped with green and in coarse trousers of a dark material, just such garments as Melvin wore.
Melvin left his home on April 9 and was to have returned three days later. Since that time he has not put in an appearance. It was his intention to sail from San Francisco to Sausalito and thence to Richmond.

Armond Carter of 512 Fourth street, Oakland, has further identified the remains as being those of Robert Melvin. Deputy Coroner Straight is now awaiting the appearance of Melvin's relatives to complete the identification.

MRS. OLNEY IS SPROULE BACK SECRETARY.

EL CAMINO REAL CONVENTION IS IN SESSION.

SANTA BARBARA, April 20.—A permanent organization was effected this morning at the El Camino Real convention and delegates are now down to the real work of the meeting. This morning's proceedings opened with the selection of an executive committee of fifteen, this committee to elect a president, eight vice-presidents, secretary, treasurer and two auditors. A. P. Fleming of Los Angeles was chosen president, Mrs. Caroline Rickett Olney of Oakland secretary, and Oscar Mueller of Los Angeles treasurer. It was decided that the vice-presidents would be chosen later by a committee to be appointed by President Fleming.

Perfect harmony prevailed throughout the day's deliberations, contrary to the expectations of those who were in attendance at the meeting in Los Angeles several weeks ago, when a factional fight between the northern and southern delegates seemed imminent.

The taking of testimony in the Page divorce case was completed this afternoon. The morning was spent in both sides putting on witnesses to rebut certain minor points testified to by other witnesses on their direct examination. A point which has been combated throughout the case is the date upon which Mrs. Page home-stayed the Page place at San Leandro. The document was filed on August 10, 1903. Mrs. Page began her action for divorce in the latter part of June and it is claimed by Mr. Page that his wife never resided or slept in their home after July 1.

The hearing of the date is that a person cannot home-stay property unless they are a bona fide resident on the place and it has been attempted to show that Mrs. Page had already deserted a place which she afterwards put a home-stay upon. In behalf of the plaintiff a Mrs. Meyers was called as a witness this afternoon and testified that she called at Mrs. Page's home on August 2 and asked for Mrs. Page. Mrs. Page came to the door and said that his wife was upstairs and went and called her. Mrs. Page had come to the head of the stairs and said she was dressing. Mrs. Meyers fixed this date as August 2 by reason of the fact that it was an earthquake that night. This it is believed materially strengthens Mrs. Page's contention that she did not leave her home until after August 2.

BROKEN-HEARTED, PROGRESS OF THE WANTED TO DIE NATIVE SONS.

YOUNG SPANISH WOMAN TURNED ON THE GAS.

SAN FRANCISCO, April 20.—Dependent and broken-hearted, Mrs. Filbert of 126A Eighth street turned on the gas last night. She was found in her room shortly before 9 o'clock today breathing heavily. The room was filled with the stifling fumes of carbon monoxide.

Yesterday the woman's husband left her. She went downtown in the afternoon, and on her return discovered a letter lying on the table, saying that he had gone, never to return. The woman was frantic with grief and was comforted only with great difficulty.

She evidently prepared herself for death. When she was found her hair was uncombed. It lay coiled on her head as though she had just finished dressing it. Her apparel was neatly laundered and her fingers manicured.

Mrs. Filbert was a Spanish woman of about 30 years of age. She is more than ordinarily good looking. Her recovery is doubtful.

WILLIAMS AFTER ATTORNEY-GENERAL.

WASHINGTON, April 20.—At a meeting today of the House Judiciary Committee, Mr. Williams of Mississippi, the minority leader, charged that the Attorney-General had failed in his duty to conduct criminal prosecutions against the bill declared by the Supreme Court in the merger decision to have violated the anti-trust law and also had failed to institute legal proceedings against the anthracite coal carriers, although the Attorney-General had in his possession a report favorable to prosecutions of these railroads.

In a letter to the chairman of the committee, from which Mr. Williams read, the Attorney-General declared it would be incompatible with public interest to give the information to Congress, but Mr. Williams declared that it was the duty of Congress to impeach an officer of the government chronically failing to observe his oath in the execution of his law.

Why the School Bonds Should Carry

Next Saturday the school bonds will be voted on. Upon the success of that election depends largely the future greatness of this city. In the scheme submitted by the Board of Education, we have the first comprehensive plan of improvement of schools looking to the future needs, which has ever been proposed in this city. Heretofore school buildings have been erected as the present needs required, with little thought for the future, the result being that for many years our schools have been sadly overcrowded. It has been a detriment not only to the School Department, but to the children who have attended the schools.

Notwithstanding the fact that Oakland's reputation is world wide as an ideal educational center, there is still much to be desired in this connection. Should the voters of this city at Saturday's election signify their desire for a greater and better school system by voting in favor of bonding their districts for school purposes, it will mean a system of educational facilities that will undoubtedly result in great good to the city of Oakland as a whole, as well as to our children individually.

One instance may be cited as to where it is absolutely necessary for some immediate relief. The Bay School, in the northern section of the city has been sadly overcrowded for sometime, a condition which could not be avoided, but which will be remedied when the new building is constructed in that vicinity. This building will make it possible for Oakland to accommodate her own school children, and thereby relieve the pressure on the Bay School by excluding therefrom children who are attending from other towns.

The acquiring of school sites and the construction of a new building in the northern section of the city is a tardy but just acknowledgment of the needs of the recently annexed territory.

It is an imperative necessity that the Franklin School should be rebuilt. Every citizen in East Oakland is personally interested in that. The present building is wholly inadequate to the needs of the district in which it is located. It is an old wood-frame structure that has been gutted by fire, and was fitted up for immediate use by a patched up temporary upper story. If the bonds carry this nondescript affair will be replaced by a stately brick edifice containing thirty rooms. This proposed structure will provide accommodations now sadly needed and will give the Seventh ward a school building that will adorn that section of the city.

Oakland's claim to being a city of schools cannot be maintained if the people do not vote to provide the children with sufficient school accommodations. The issue will be decided next Saturday. Vote for the bonds the first thing in the morning.

Either the foreign correspondents of the American papers are gifted with remarkable imaginative powers or the Emperor of Germany is a remarkable individual. A few days ago a lengthy special cable represented the imperial family as plunged in profound grief because the Kaiser was dying of cancer. Next day the Associated Press reported His Majesty as enjoying himself by making a social visit to Mrs. Robert Goebel, of New York, aboard her yacht at Syracuse, Sicily. The cancer story sounds a good deal like the oft-repeated yarn about the fall of Port Arthur.

Judge Parker and the Trusts

In the main the platform adopted by the New York Democrats has all the indefiniteness of platitudes and sweeping generalization, but there is a word of meaning in this paragraph from the fourth plank:

"Corporations chartered by the State must be subject to just regulation by the State in the interest of the people."

There is a double significance in this declaration because it is an admitted fact that Judge Parker, whom the convention endorsed for President, dictated the platform if he did not actually draft it. A few days before the convention met the jurist lunched in New York City with August Belmont, banker and railroad magnate, and submitted for his consideration the draft of a platform that it was proposed to present to the convention.

Is the platform shown to Mr. Belmont by Judge Parker the same document in which occurs the significant declaration above quoted?

In another place the platform says: "The maintenance of State rights and home rule; no centralization." Rightly this should have been connected with the declaration that trust regulation should be left to the States which charter the trust corporations, but it was divorced from its proper sequence in pursuance of an artful policy of subterfuge and evasion.

The three Democratic justices of the Federal Supreme Court, in dissenting from the decision of the majority in the Northern Securities case, laid down the doctrine that Congress has no power to regulate corporations (trusts) chartered under State laws. The Democratic convention of New York, voicing the will and sentiments of Judge Parker, affirms this doctrine as a tenet of party policy. When we take the two together and read between the lines we can easily understand what is meant by "a sane and conservative" policy. It means such a policy as every trust magnate in the land will contribute liberally to carry out. It means the setting up of the old abortive theory of States right to protect trust organization and trust spoliation as it was set up by Calhoun to justify Nullification and fortify the institution of human slavery.

Judge Alton B. Parker is no longer an unknown quantity in politics. We know also who is behind the gun.

Oaklanders who do business across the bay should vote for the school bonds next Saturday before taking the train for San Francisco.

The story that the Russians are preparing to invade Afghanistan as a counter move to the British invasion of Tibet had better be taken with a liberal amount of salt. Russia has had her hands full at present. Besides, the Afghans are a different breed from the Tibetans. They are desperate fighters as the British found early in the fifties, and as is told by the bones in Khyber Pass. They are well armed and their ruler is a bold and resourceful chieftain, who would resist the conquest of his realm to the last gasp. Also, the invasion of Afghanistan would be likely to provoke war with Great Britain; and just now the Czar and King Edward seem desirous of coming to a good understanding.

Every friend of popular education is under a moral obligation to drop all private business next Saturday long enough to vote for the school bonds.

Democracy and Divine Authority

Rev. Lyman Abbott, editor of the Outlook and a forceful commentator on public questions and current events, repudiates Jefferson's theorem that the right of government rests upon the consent of the governed. He says "all governments rest upon divine authority."

Where does he find his authority for that statement? His dictum is a mere assumption to give sanctity to a theory that has been the warrant of oppression ever since superstition allied itself with tyranny. It is a hideous calumny on the Almighty to say that the rule of King Theebaw and Nero and Herod and Henry the Eighth and Louis the Fifteenth and the mad Czar Nicholas existed by divine authority.

Dr. Abbott says the South favored slavery and was put down. He neglects to state that slavery has existed with the sanction of Bibles, churches, kings and governments as long as history has carried a record. Slavery was abolished because it is fundamentally opposed to the doctrine that the right of government rests on the consent of the governed.

It is broadly true, ethically and historically, that governments exist by consent of the governed. Even the despotism of Russia today exists, not by divine authority, but by virtue of the fact that a vast majority of Russians consent to it and support it. The moment that the mass of Russians desire to change their form of government they will change it. When the French people got sick of absolutism they smashed it, beheaded its living representatives and dug up their dead kings that the ashes might be distributed as no longer worthy of honored sepulchre. Every country in Europe has changed its dynasties and its form of government whenever the will of the people directed.

The doctrine that the consent of the governed is necessary does not imply and never did that the consent of all the governed shall be obtained. The majority rules. While the minority leads in thought, the will of the majority is the mandate by which things in the present exist. The Southern people were a part of the people of the United States—a minority. Their will had to give way to the will of the majority. There was no question of divine authority about it, unless it be accepted that the voice of the people is the voice of God—and if that be so, Dr. Abbott's theory fails to the ground, because the voice of the governed and divine authority are one and inseparable.

The Scenic Highway and Road Improvement

Alameda county is becoming noted for its fine public roads. Automobiles and bicyclists find the highways in the vicinity of Oakland particularly attractive for their favorite recreation, and the reputation they give Alameda county for having excellent modern roads is one of the best advertisements the county has.

These roads are the result of more than ten years of an active campaign of highway improvement. This campaign was inaugurated with the entrance of J. H. Talcott into the Board of Supervisors. If Mr. Talcott were not a shrewd, successful man of business, people might call him a crank on good roads, for he has labored during all the years that he has sat in the County Board with persistent energy for the cause of road improvement. To his mind, a good road is synonymous with good government, and in this he is not far abroad, for fine highways are a general index to effective and progressive administration.

Mr. Talcott's long service in the Board of Supervisors is about to have its crowning triumph in the construction of the Scenic Highway, along the foothills, from Oakland to Hayward. The preliminaries are now being completed preparatory to beginning the work of actual construction. When it is completed, Alameda county will have one of the grandest highways in California—a boulevard in fact, along which country residences will cluster and development pursue its way. This beautiful highway will follow the mesa overlooking the valley, commanding a wide prospect of field, vineyard and orchard on the right and on the left the noble contours of the Contra Costa hills. It will relieve the present county road, on which travel is congested, of much traffic, and will open to direct communication a splendid suburban district now awaiting development.

The construction of this road is a scheme dear to the heart of Supervisor Talcott, who has had it in mind for years, and it has enlisted the warmest sympathies of Supervisor Horner, who has been an evangel of good roads in his district. Like Mr. Talcott, Mr. Horner is an ardent advocate of road improvement, and the Livermore valley and the other sections of his district bear eloquent testimony to his efficient efforts to secure good highways and bridges for his constituents. In the future, Supervisor Horner hopes to see the Scenic Highway extended to the southern boundary of the county and to a connection with the excellent system of roads constructed and in course of construction in the Livermore valley.

The reputation of Oakland as an educational center depends upon the success of the bond issue to provide for new buildings, playgrounds and other betterments. The election takes place Saturday, April 23d. Don't fail to vote.

Bourke Cockran certainly deserves to be called the chameleon of politics. In 1892 he appeared at the Chicago convention as the spoke-man of Tammany Hall and the forensic champion of David B. Hill, defending the unit rule and the gagging of minorities. Later he left Tammany and denounced it as an organization too corrupt for an honest man to affiliate with. After making his great speech denouncing Cleveland he became the spoke-man of Cleveland on the floor of Congress. Again he has returned to Tammany, and appears in the Albany convention fighting David B. Hill and the unit rule, pleading for the right of the minority—which happens to be Tammany Hall in this instance—and deploring the policy of instructing the delegation. Mr. Cockran appears to have boxed the compass.

Captain Hobson appears to have been "kissed off" in his aspiration to go to Congress. Like that other naval hero, Admiral George Dewey, he finds politics a poor game for an honest sailor to play at.

Rev. Lyman Abbott, pursuing his theory that government exists by divine authority and not by consent of the governed, says the Southern States that have disfranchised the negroes did quite right. The negroes were given the franchise by the nation at large which inserted a clause in the Federal Constitution to that effect. This clause has been nullified by six Southern States. Yet Dr. Abbott says the Southern States were put down because they favored slavery which was not forbidden by the Constitution. Now, if the Southern States can deprive the negro of his constitutional right to vote why cannot they with equal right deprive him of his liberty? But if "all government exists by divine authority," why was slavery ever permitted to exist? Dr. Abbott puts it up to the Deity very hard.

A considerable proportion of the amount to be raised by the school bond issue is to be devoted to the purchase of playgrounds adjacent to the older schoolhouses, the Board of Education being impressed with the necessity for providing the children with places where they can romp and play under the eyes of their teachers during recess. As the city becomes more densely built up the necessity for such recreation grounds becomes more apparent. The money expended for the purchase of playgrounds will not be spent—it will be invested in property that will steadily increase in value as the city grows, and will represent fixed capital.

The Sacramento Bee appears to be getting into a position to take to the woods on election day. It doesn't like Roosevelt, Hearst or Parker, and it must be one of these three, or flock with the Socialists and Prohibitionists.

THE COUNTY INFIRMARY

The Herald could scarcely be accused of being an apologist for the Republican Board of Supervisors of this county. It has seen fit to criticize its acts in the past and reserves the right to do so in the future, but cannot remain silent when an outrageous attack is made on the County Infirmary by a notoriously unfair newspaper on the unsupported statement of two discharged employees. The infirmary under the immediate direction of Dr. W. A. Clark and the efficient Hospital Committee of the Board of Supervisors is unquestionably the best conducted and most economical institution of the kind in the State and it is a safe prediction that the Grand Jury which has recently investigated it thoroughly will make a favorable report on the institution instead of condemning it.—Livermore Herald (Dem.).

Hints for the Ladies.

Jet side combs are the latest novelty in hair ornaments.

An old little brooch has three little gold chickens perched on a gold bar.

Hair combs with floral tops are among the newest things for coiffure wear.

A handsome pair of black silk stockings is shown embroidered in a design of lilies.

In glassware the colonial styles are much in vogue, being plain and delicate looking.

Some useful cravenette coats made in the full length style with cape effects are on sale for \$15 each.

Soap dishes of nickel that screw on the wall beside the bath tub are a toilet convenience and cost only 35 cents.

Delightful little red suits for small boys are made in the Russian style. This same suit also comes in white flannel.

A handsome lot of service plates in rather unusual designs are being closed out at \$1.50 each and are a great bargain.

A gray coat in military style, intended for automobile wear, is piped with bright red and is trimmed with gold buttons.

A tea stand in wood has a shelf for the crock jar, green and silver jug, while the top is sufficiently large to hold the entire tea service.

A finger bowl of clear glass is engraved in a floral design in hand etched on the top of the glass and is very pretty. These bowls cost \$10 a half dozen.

For the summer home are made wood baskets in mission style that will hold quite a quantity of wood and when closed serve as seats for the fire place.

One of the conveniences for the housewife is a washboard made of corrugated wood having with it a fitted wooden roller, so that one need not rub with the knuckles.

Trays of mahogany with a brass rail on all sides are artistic and satisfactory in the case of overflows when serving hot tea or coffee or other beverages likely to spill.

For protecting the dinner table from hot plates or platters are shown round nickel-plated racks of open work which may be elongated so as to accommodate round or oblong dishes.

In kaiser zinn are shown many pretty and useful articles including trays, jugs, steins, platters, covers, pudding dishes, gravy boats and bonbon dishes. While this line is not costly it has a real beauty all its own.

Dining room furniture in the mission and Roycroft designs are popular and many handsome pieces are exhibited in the shops. One dining table has a round dished top, the four legs being at each corner and square.

A beautiful hat in poke shape is made of shirred tulle and is trimmed with a wreath of pink roses, while around the crown is a band of black velvet ribbon with long streamers hanging down behind far below the waist line.

One can get his favorite book or volumes of favorite authors in dainty and pretty bindings that provide not food for the mind but the sweetest of chocolates and bonbons, for they are nothing more than a new design in candy boxes.

Sun hats made of dimity are among the dainty things for children's wear that are displayed in the shops. They come in various shades, are large and almost flat in shape and are edged with a bit of narrow lace. The broad bow which ornaments the front is made of the goods, ribbon being but rarely used. These hats fasten with an elastic and are very becoming to small girls of 4 years old and over and take the place of the sunbonnet.

BEFORE NEW ERA CLUB.
Very cleverly and fairly did Dr. White tear the veil from the idols of the past and show them to be "men of like passions." His lecture last night before the New Era Club of the First M. E. Church was greatly enjoyed. Men of genius in all the walks of life were shown to be swayed by peculiarities and weaknesses which in the eyes of their closest friend dimmed the star of their glory and showed that genius and grossness lived in the same character many times.

Miss Ida May Bradley recited "Mark Twain and the Interviewer" and Oscar Lee sang two tenor solos.

JOINT CONVENTION OPENS.

ALAMEDA COUNTY CIRCLES OF WOMEN OF WOODCRAFT MEET HERE.

The joint convention of the Alameda county circles of the Women of Woodcraft opened last evening with a banquet at the Maison de l'Opera, in honor of the grand officers and the visiting delegates. Derrick, grand adviser of the order; Mrs. J. T. Williams, guardian neighbor of Oakland circle and several visiting neighbors.

In her address, Mrs. Van Orsdall said in part:

"The story of all great achievements is a story of small beginnings, of unwavering faith, of sleepless persistence. Nothing in all the world's history ever sprang into life spontaneously perfect. No following was ever gathered about any movement or idea without the lodestone of faith to draw men and women to it—faith which would enable them to live for it, fight for it, and if need be, die for it."

"This gathering tonight is a gathering of the representative workers; and as I have an especial fondness for those who do things, those upon whom falls the 'work of the world,' I am proud of the honor of being one of you."

STATE RANKS HIGH.
"California ranks third in membership among the nine States with Colorado first and Oregon second. You have over 7000 members in the State now. You have the population of you have a 'good thing' to talk for and recommend to those seeking fraternal insurance. It's up to California to rank second—even first. Will you grasp your opportunity? I have faith to believe you will."

The Oakland Circle under the direction of Captain of the Guards Mrs. A. L. Miller will do the initiatory work and each of the chairs will be occupied by one of the visiting officers. After the initiation the sixteen guards of the Oakland Camp will give a fancy military drill, which will be followed by an address by the grand guardian.

On Saturday evening, April 23, an open meeting and reception to the grand officers will be held at Woodmen's Hall at which the grand guardian will address explaining the objects of the order. A cordial invitation is extended to the public to attend this meeting.

PROTEST AGAINST CHINESE.

RESIDENTS IN AN EXCLUSIVE SECTION OF BERKELEY TO PETITION TRUSTEES.

BERKELEY, April 20.—Fearful that plans to establish a Chinese mission on Dwight way, near Telegraph avenue, might prove to be the entering wedge of a Chinatown in one of the most fashionable residence districts of the city, the people living in that section are making a strenuous effort to crush the evil before it becomes firmly established. A protest against the proposed mission will be presented at the meeting of the Town Board of Trustees next Monday night.

Mrs. E. P. King of 2501 Telegraph avenue, who is prominent in circulating the petition, is so determined in her opposition that she has threatened to open laundry next to her house. She said today:

"It would be a disgrace and a shame if we allow a Chinatown to grow up here. I do not blame Mr. Heacock. I know that he is trying to Christianize the Chinese. But they hoodwink him. The place they have now, near Manoa avenue, is a horrible den at night after he is gone, and we don't want another one in our neighborhood."

M. degree at Syracuse University in 1867 and was given the degree of LL. D. by the same institution in 1900. Dr. Bridgman was at one time a clerkman of the Methodist Episcopal Church. REMAINS OF AN UNKNOWN CAST ON SHORE.

A. E. Fieldhouse Makes a Growsome Discovery on the West Berkeley Beach.

BERKELEY, April 20.—The corpse of a man who bears the appearance of having been a sailor or a fisherman, was washed on the West Berkeley shore at the foot of Jones street last night. The remains were discovered by Aaron E. Fieldhouse of 1615 Fifth street.

At the branch morgue it was ascertained that the body was five feet five inches in height. The clothing consisted of a red and green striped sweater and black trousers, coat and shoes being missing. There was nothing in the clothing that would lead to an identification.

To all appearances the man was about thirty years of age. His hair was black and he wore a sandy moustache. The belief is entertained that the fellow was drowned in the vicinity of San Francisco and that he was carried across the bay during the recent storm. The remains were in the water at least ten days.

ROBERT DUPOUEY WILL SPEAK FRIDAY UNDER AUSPICES OF ALLIANCE.

BERKELEY, April 20.—On Friday afternoon at four o'clock in the Students' Observatory Building, Robert Dupouey will deliver the first of two lectures in French. M. The second lecture will be given on Monday at four o'clock, also in the Students' Observatory. M. Dupouey's topics will be "La Journe d'un homme contemporain" and "Le Theatre social." These lectures like several other series of lectures by well known French literateurs, are provided through the generosity of Mr. Jas. E. BERKELEY, April 20.—The playing of two little children with a lighted stove and coal oil brought destruction to the residence of their parents, Mr. and Mrs. Kyran Connors, of Third and Harrison streets, and almost took their lives at 6 o'clock last evening. The children, Viola, aged 5 years, and three-year-old Jack, were alone in the house when they conceived the idea of pouring coal oil on the fire.

A terrific explosion ensued and the kitchen immediately burst into a mass of flames. The cries of the children and the blaze were heard and seen by some Japanese laborers who dashed in a doorway and dragged the children out.

Nothing was saved from the house after the rescue of the children and the loss will be \$2000.

The topics of the night's sorority house were tastefully trimmed with spring flowers and twining foliage, until they resembled bits of fairyland. All the members of the sorority were very handsomely gowned and served light refreshments to the guests. The hours of receiving were from 4 to 7 p. m. Many of the faculty and their wives were present as well as some of the most prominent people in college.

Among some of the college girls who belong to this popular sorority are: Miss Nettie G. Abbott, Miss Florence I. Dodge, Miss Cora Lee, Miss Mary Duran, Miss Elizabeth M. McRae, Miss Edith Martin, Miss Gerda Powell and Miss Georgia K. Rottan.

The Mills boy is a child prodigy in music and it has been learned that a boy answering his description was playing a piano in Fruitvale last Sunday night. While Mills played the piano his companion Grow would pass the hat. If the boys have not left San Francisco, the police hope to locate them before long.

MOTORMAN WAS EXONERATED.

CORONER'S JURY SAYS DEATH OF VESTA CLARK DUE TO ACCIDENT.

GOLDEN GATE, April 20.—An inquest held by Coroner Mehrmann to determine the cause of the death of Vesta Clark which occurred Saturday morning last at the foot of Fifty-eighth street on San Pablo avenue was held last night at the residence of the child's parents at 1338 Fifty-eighth street.

The funeral services were held last Sunday morning at the Methodist Church. The remains were buried yesterday from the church and the body was conveyed to Evergreen cemetery for burial.

The accident which caused her death was due to a collision with a south bound car just after it passed Fifty-eighth street crossing at Golden Gate.

Mrs. Clark, mother of the deceased, was first called. She stated that the last she saw of the child she was riding down Fifty-eighth street in the direction of San Pablo avenue. The next she saw of Vesta was when she lay on a couch in Dr. Wood's office. She had not been told by the child what caused the accident as Vesta was not able to tell herself. After remaining with her daughter at Dr. Wood's office, she returned home, her husband carrying the girl in his arms. She noticed no symptoms of illness other than that the child complained of a headache. Early in the morning Vesta called her mother's attention. In a few minutes she was dead without telling the cause of her death.

Mrs. Clark, being sworn, deposed that she had seen the girl on her bicycle endeavoring to cross the track in front of the moving car. The girl seemed to be unable to control her wheel. When Vesta fell she turned away as she did not like to witness an accident of this nature.

Waldo Clark told the story of the death of the child which was much the same testimony as that given by his wife. He did not know of the accident until returning from work late. He went at once to the doctor's office.

William Schauer, sworn, deposed that he was riding on his bicycle on San Pablo avenue in the same direction as that taken by Vesta Clark. He testified as to seeing the child fall. Was first on the scene. Called to the motorman to reverse the power which was done. He stated that the child was underneath the fender of the car. The fender rolled the body and dragged it perhaps eight feet. He extricated the body, carried it with assistance to a drug store, then to Dr. Wood's office. The child seemed partially unconscious. He was not able to obtain the child's name.

C. Cronin, the motorman of car No. 105 at the time of the accident was sworn. He testified that the car was going from three to four miles an hour. Saw no obstructions on the track. Trained the wheelman, without seeing the child on her bicycle appeared and he immediately put on the brakes. The girl was but two feet in front of the car at the time. Asked how far the car ran after he shut down the brakes he replied that he stopped the car in two feet. He did not get off the car to see what the trouble was. The child was headed east he thought.

M. Sloffenhager, conductor of the car, stated that he knew nothing of the accident until the car suddenly stopped. He did not see it as he was on the back platform at the time.

Other witnesses were called but could add no further testimony.

There was considerable question by all as to the direction in which the child was going when she struck the car. While it was not clear as to whether she was coming east or west or from west to east.

After all testimony had been taken the jury retired and after a few minutes returned a verdict completely exonerating the motorman and declaring that Vesta Clark came to her death accidentally.

The jury was composed of Fred Finke, J. P. Claussen, R. S. Wikson (foreman), H. Robson, A. Berry, Henry Klee, George Goshier and C. H. Burt.

EXCURSION TO BE A SUCCESS

MANY ANXIOUS TO GO ON MERCHANTS' EXCHANGE TRIP TO ST. LOUIS.

A regular meeting of the Merchants' Exchange was held last night in the headquarters of the Exchange in the Central Bank Building. Owing to the absence of President Theo. Glen, the meeting was presided over by Vice-President A. Jones. Those present were: G. W. Arper, R. M. Briare, D. C. Brown, J. L. Champlin, H. C. Coward, F. M. Farwell, A. Jones, A. H. Schlatter, H. G. Williams and W. H. Walker.

The minutes of the last regular meeting were read and adopted as read. The first business of the meeting was in reference to the upper portion of the bridge spanning the tidal canal between Oakland and Alameda, connecting San Lorenzo and San Francisco bays. The property owners along the upper portion of the canal addressed the Merchants' Exchange, asking that body to investigate the reason why the two upper bridges were not drawnbridge. They claimed that the canal had been constructed for navigation purposes and owing to the bridge structure this end was destroyed. The Exchange addressed a communication to Congressman Victor H. Metcalf in reference to the matter. The matter was laid over until the next regular meeting.

The communication read as follows: "WASHINGTON, D. C., April 11, 1904. "My Dear Sirs: I beg to acknowledge receipt of yours of the second instant relative to opening the tidal canal for navigation. I have been quite ill for the past two weeks, and still confined to my room and under the doctor's care. At the earliest possible moment I will call at the War Department and take up the matter of your communication. Very truly yours, "V. H. METCALF."

Telegraph Avenue Committee reported that by the next meeting the committee would be able to make a definite report in reference to the brewery at the corner of Nineteenth street and Telegraph Avenue being moved back from the sidewalk.

The committee having the St. Louis Fair excursion in charge reported that 250 names had been registered with them as desirous of joining the party. The excursion is under the auspices of the Merchants' Exchange and will leave Oakland May 12.

H. G. Williams reported that the Hotel Grocers' Association would have about \$500 to contribute to the Board of Trade, to the National Grocers' convention to be held in San Francisco, commencing May 4.

The committee has planned a whist tournament to be held in Maple Hall, April 24, to assist in raising funds for the entertainment of the delegates from the convention.

Charles F. Wagner, of the Telegraph Avenue Improvement Club, addressed the

club in reference to taking action in compelling the Oakland Gas, Light and Heat Company to place their feed works under ground. He called attention to the fact that the Sunset Telephone and Telegraph Company was placing their wires in conduits. Mr. Wagner stated that a petition carrying 124 names of property owners on the avenue had been presented asking for the change to be made. He urged that at the present time the change could be made at less expense to the electric company, as the street was torn up for the purpose of macadamizing.

Mr. Wagner also stated that the Telegraph Avenue Improvement Club were desirous of having the macadamizing extended from thirty-sixth street to Fortieth street and as the Adult Blind Home, belonging to the State, occupied two blocks at that point, the matter would be brought to the attention of the State Board of Examiners.

The Telegraph Avenue Club were anxious of the support of the Merchants' Exchange in both matters.

The Exchange appointed a committee of Messrs. J. S. Smith, H. G. Williams and W. H. Walker, to confer with the Improvement Club in reference to the proposed macadamizing. The matter of extended macadamizing was referred to the regular Telegraph Avenue Committee.

Theo. Glen and A. H. Schlatter were appointed delegates to the Macadamizing celebration to be held at Alameda, Friday and Saturday of this week. William Walker, secretary of the Merchants' Exchange, was appointed a speaker for the Exchange at the meeting of the West End Improvement Club, of Alameda, to be held Thursday night. H. G. Williams stated that the annual banquet to be given by the Merchants' Exchange will be held in Hotel Metropole Wednesday evening, May 11.

There seems to be some confusion about the voting precincts for the school election next Saturday. All voters will be done at the various schoolhouses. The superintendent of schools has issued circulars on the subject.

TO IMPROVE SERVICE. BERLIN, April 20.—The questions of improving the German consular service through the addition of expert commercial advisers and the promotion and organization of German Chambers of Commerce abroad, has come up in the Reichstag. Herr Muench-Perber (National Liberal), offered a resolution asking for an appropriation for a so-called advisory council of experts from the German commercial classes, to be attached to the more important of the German consulates. Speaking to the resolution, Herr Muench-Perber said Germany must improve her sources of information abroad, because will be two chief competitors, the United States and Great Britain, were doing so. The resolution was adopted by a large majority.

STRIKE ON RAILROAD. BUDA PEST, April 20.—Owing to dissatisfaction with the government bill for the regulation of wages, a strike has broken out on the government owned Hungarian Western Railway. The Orient express from Paris, due here at 11 o'clock last night, is stalled at Parkanyan, and the express in the opposite direction will be diverted to the central station via the line which part of the system is still working.

It is expected that the men on other government lines will strike today. They complain that Count Stephen Tisza, the Premier, has not fulfilled his promise to increase wages.

WILL BOOST CITY. A meeting of the Progress Federation, which includes the Improvement Clubs of Oakland, the Fraternal Orders, the Board of Trade, the Merchants' Exchange, the Trade Unions and other similar bodies, will take place this evening, the 20th inst., at the rooms of the Board of Trade, 522 Twelfth street. The business of the evening will be principally the election of officers and receiving the reports of the various committees, as well as other matters of general interest. MAKE AN APPEAL FOR BETTER SCHOOLS.

Enthusiastic Bond Meetings Held in the Second Ward Last Night.

That the citizens of the Second Ward and North Oakland are fully awake to the importance of voting for school bonds next Saturday was evidenced by the residents thereof holding two important meetings last evening.

One of these meetings was held at the Durant School building near Twenty-sixth and Grove streets.

This meeting was called under the auspices of the Second Ward Improvement Club and was largely attended. Many prominent citizens of the Second Ward as well as other localities were in attendance.

Called to Order. Ben O. Johnson, president of the club, called the meeting to order and presided.

G. C. Earl, Commissioner Elliot, H. C. Ingram, Principal Gullick of the Lincoln School, Principal Dunbar of the Durant School, Judge Snook, George E. Randolph, F. M. Hathaway, Lowell C. Hardy and J. W. McClymonds of the School Board made enthusiastic speeches in favor of the school bonds.

ELLIOT'S SPEECH. Councilman Elliot in his speech said that the citizens of Oakland had elected a School Board of good, honest, competent men who were giving their time gratuitously to the educational work of the city.

That they had presented a bond scheme after careful consideration, embracing the needs of the school department.

He said the people of this city should have confidence in the wisdom of the Board of Education and vote the school bonds. That every vote registered against school bonds was a vote of lack of confidence in the Board of Education.

He earnestly appealed to the citizens of the Second Ward to be alive to the issues on next Saturday and turn out and vote for bonds.

EARL'S ADVICE. Mr. Earl in his speech referred to the educational advantages of Oakland's public schools.

They have been the pride and boast of her citizens. That it was one of the greatest factors in building up Oakland. That he and his brother, as boys, residing in one of the mountain counties of our State, had been attracted to Oakland on account of the perfect school facilities at that time and had made it his home and was raising a family to be educated in our schools.

He said that all school buildings should be built of the very best material with a view of perfect sanitation and thoroughly equipped in every feature.

PROF. GARLICK. Prof. J. P. Garlick, principal of the Lincoln School, said that the Lincoln School building which was proposed to be replaced by a modern one, was an old ramshackle building, wholly inadequate for the accommodation of the

pupils of this thickly populated portion of our city.

That six temporary rooms had been constructed in that building in the basement and in partitioning of hallways and cloak rooms which were thoroughly unfitted to house school children.

That the danger of fire, owing to these crowded conditions, was great. That the building was of such an unsafe condition that he was afraid at times to march his pupils through the hallways.

SCAVENGERS AND BONDS.

HOW SYMPATHIZERS OF FORMER GARBAGE MEN CAN ASSIST THEM.

OAKLAND, April 20. Editor TRIBUNE—A great many householders of Oakland, carried away by their sympathy for the old scavengers are refusing to patronize the Pacific Sanitation Company, and a considerable amount of indignation is even expressed that this company should have been allowed to interfere with the business of these hard-working individuals.

Yet it can scarcely be wise to disregard the health of the entire community in the interest of a class, however worthy, and no one can deny for a moment that the old method of disposing of the refuse from our great city was a constant menace, not only to the city itself, but to visitors and the surrounding country.

In point of fact, a corporation has no more right to "maintain a nuisance" than has an individual, and it is inconsistent to say the least, for any city to require her citizens to keep their premises in a sanitary condition, while allowing such a nuisance as "The Dump" to flourish in her own back yard.

Every sane person must admit that sanitation is the only safe and proper method of disposing of a city's garbage. Instead, then, of lighting the Pacific Sanitation Company with a torch, let us encourage and aid their efforts.

This does not necessarily mean that we should feel sympathy for the scavengers or should turn them adrift to become tramps and outcasts.

If those who are now expressing their sympathy for the old scavengers are sincere in their desire to improve the city, let them express it by voting for the bond issue, which will be in a position to offer every one of these men employment of a legitimate and more agreeable sort, at good wages, that will enable them to earn a living without inflicting injury upon others.

They have, in the past, performed a useful service, but have, in doing so, been obliged to create a nuisance that can no longer be tolerated.

Let us now afford them an opportunity for repaying this debt, so far as possible, by employing their time and strength in beautifying the city, planting trees, helping to lay out parks and building school houses, which shall benefit themselves and their children, and give it to come. These men are a part of the city, and their interests should be taken into account. Let us all unite in their behalf through their union, if necessary, to secure the bond issue.
